Education

University of Michigan, Department of Physics 2017 –
Ph.D Candidate in Physics. Advisor: Mark Newman
Research areas: Network Theory, Urban Science, Statistical Physics

University of Rochester, Departments of Physics & Astronomy and Mathematics 2017
B.S. in Physics and B.A. in Mathematics, *summa cum laude*

Publications

† first/co-first authorship, * corresponding authorship

Papers Under Review

1. **A. Kirkley**†,*, G. T. Cantwell, and M. E. J. Newman, Message passing for probabilistic models on networks with loops. *Preprint arXiv:2009.12246* (2020). In revision at *Science Advances*.

2. J, Aguilar, A. Bassolas, G. Ghoshal, S. Hazarie, **A. Kirkley**, M. Mazzoli, S. Meloni, S. Mimar, V. Nicosia, J. J. Ramasco, and A. Sadilek, Impact of urban structure on COVID-19 spread. *Preprint arXiv:2007.15367* (2020). In revision at *Nature Communications*.

3. S. Feng and **A. Kirkley**†,*, Online geolocalized emotion across US cities during the COVID crisis: Universality, policy response, and connection with local mobility. *Preprint arXiv:2009.10461* (2020). In review at *Scientific Reports*.

4. G. T. Cantwell, **A. Kirkley**, and M. E. J. Newman, The friendship paradox in real and model networks. *Preprint arXiv:2012.03991* (2020). Submitted to *Journal of Complex Networks*.

Peer Reviewed Papers

5. **A. Kirkley**†,*, Information theoretic network approach to socioeconomic correlations. *Physical Review Research* **2**, 043212 (2020).

6. A. A. Klishin, **A. Kirkley**, D. J. Singer, and G. van Anders, Robust design from systems physics. *Scientific Reports* **10**, 14334 (2020).

7. S. Feng and **A. Kirkley**†,*, Mixing patterns in interdisciplinary co-authorship networks at multiple scales. *Scientific Reports* **10**, 7731 (2020).

8. **A. Kirkley**†,*, G. T. Cantwell, and M. E. J. Newman, Balance in signed networks. *Physical Review E* **99**, 012320 (2019).

9. **A. Kirkley**†, H. Barbosa, M. Barthelemy, and G. Ghoshal, From the betweenness centrality in street networks to structural invariants in random planar graphs. *Nature Communications* **9**, 2501 (2018).

Funding

National Defense Science and Engineering Graduate (NDSEG) Fellowship 2019 –
2019-2022 Class of Fellows

National Science Foundation Graduate Research Fellowship (NSF GRFP) 2019 (declined)
Awarded 2019, but declined to accept NDSEG Fellowship

University of Michigan Rackham Research Grant 2019
$3,000 USD award for supporting research-related expenses

Awards and Honors

Summa cum laude, University of Rochester 2017
Awarded to top 2% of students in the graduating class across all fields

Phi Beta Kappa, University of Rochester 2016
Awarded to top $\sim 1\%$ of students in the junior class across all fields

University of Rochester Physics Honors Prize 2016
Awarded to top performing junior undergraduate in physics

Teaching Experience

Center for the Study of Complex Systems, University of Michigan 2018–
Teaching Assistant, Network Theory

Department of Physics, University of Michigan 2017–2018
Teaching Assistant, Mechanics

Department of Physics, University of Rochester 2014–2016
Teaching Assistant, Mechanics
Teaching Assistant, Introductory General Physics

Department of Mathematics, University of Rochester 2014–2015
Mathematics Tutor

Technical Skills

Programming Languages: Python, C++, Cython, Bash, Stan

Skills and Coursework:

Data science: network analysis, Bayesian inference, geospatial analysis, time series modelling, data mining, algorithms, deep learning, optimization, high performance computing

Pure mathematics: probability and statistics, linear algebra, discrete math, algebra, analysis, differential equations

Physics: statistical physics, computational physics, thermodynamics, quantum theory, mechanics, electromagnetism

Other Academic Activities

Peer Reviewed Conference Contributions

"Probabilistic Models on Networks with Loops" — September, 2020
Talk, NetSci 2020, Online

"Balance in Signed Networks" — May, 2019
Poster, NetSci 2019, University of Vermont Complex Systems Center

Invited Talks

"Information theoretic network approach to socioeconomic correlations" — December, 2020
Network Science Institute, Northeastern University

"Statistical Physics and Social Systems" — January, 2020
"Social computing: methods and applications" course, University of Hong Kong

Academic Workshops

Network Epidemiology in the Time of Coronavirus (Net-COVID) — April, 2020
University of Maryland COMBINE and University of Vermont (Online)

Complex Networks Winter Workshop — December, 2019
University of Laval and University of Vermont

Complex Systems Summer School — June, 2019
Santa Fe Institute

Project Team Member

Michigan Data Informed Cities for Everyone (M-DICE) — 2020 –
Utilized methods in network science and statistical inference
to assist in identification of regions for effective scooter geo-fencing
and bike lane construction
Communicated results regularly with city of Detroit to impact local policy

Michigan Data Science Team — 2019 –
Implemented time series models to predict future development indicator data
for the United Nations Development Goals Challenge
Placed 18th out of over 2000 competitors by the challenge deadline
Implemented Natural Language Processing models to predict drug ratings
given customer reviews

Refereed Journals

Scientific Reports
Journal of Complex Networks
Humanities and Social Sciences Communications
